SUBODH KUMAR

AI & DATA SCIENCE STUDENT

Gurugram | subodhofficialz@gmail.com | Linkedin | GitHub | Portfolio | 7042389928

SUMMARY

B.Tech student specializing in Artificial Intelligence & Data Science with hands-on experience in **Python, SQL, data analysis, and machine learning**. Skilled in data preprocessing, EDA, feature engineering, model training, and evaluation using **Scikit-learn**. Developed regression and classification projects and deployed ML applications using Streamlit. **Focused on Machine Learning and Data Science**.

PROFESSIONAL SKILLS

Problem Solving | Analytical Thinking | Team Collaboration | Communication

TECHNICAL SKILLS

- **Programming & Data:** Python, MySQL, Pandas, NumPy
- **Machine Learning:** Scikit-learn, Regression, Classification, Ensemble Learning, Feature Engineering, Feature Scaling, Model Evaluation, Pipelines
- **Data Analysis:** EDA, Data Cleaning, Matplotlib, Seaborn, Data Visualization
- **Deployment & Tools:** Streamlit, Flask, Model Deployment, Git, GitHub, Jupyter Notebook

PROJECTS

Holiday Package Purchase Prediction | GitHub | Random Forest | Python, Scikit-learn, Streamlit

- Performed EDA, data preprocessing, and feature engineering on 4,888 customer records.
- Compared four classification models and tuned Random Forest using RandomizedSearchCV.
- Built a Streamlit dashboard for customer predictions and bulk CSV scoring.

Telecom Customer Churn Prediction | GitHub | Logistic Regression | Python, Scikit-learn, Streamlit

- Built a customer churn prediction model using Logistic Regression.
- Performed data cleaning, EDA, preprocessing, and feature engineering on the Telco Churn dataset.
- Evaluated the model using Accuracy, Precision, Recall, F1-Score, ROC-AUC, and Confusion Matrix.
- Achieved 80.38% accuracy and deployed the model as an interactive Streamlit application.

Algerian Forest Fire FWI Prediction | GitHub | Linear Regression | Python, Scikit-learn, Streamlit

- Performed data cleaning, EDA, and feature selection on the Algerian Forest Fires dataset.
- Compared seven regression models and evaluated performance using MAE and R^2.
- Built a Streamlit app to predict FWI from weather and fire-weather indicators.

EDUCATION

B.Tech – Artificial Intelligence & Data Science
World College of Technology & Management (WCTM)
2025 – 2029

Diploma in Computer Application (DCA)
NCVERT - 2023

Google Apps & Google Scripting Certification
Social Outreach Foundation - 2023
